

# J & R Property Management Services

The subject painting contractors completed a very large townhome community comprised of 36 - 2 story buildings as well as the pool bathhouse, mailroom, perimeter wall of the community as well as the iron gates and fencing. The work began around March of 2013 and was completed around November of 2013. I highly recommend CPR. The contact with Donny Morelock was expedient and always satisfying. He tended to the few concerns we had in a timely manner with courtesy and professionalism. The workmanship was excellent and the ending results vastly improved the community which is the Providence Town Homes located in Brandon Florida. For locating purposes the community can be viewed by taking Heather Lakes Blvd. to Glenmere Blvd. The community was painted a gold color with off white trim, white doors and offset color on the signs reading Providence Town Homes. You are welcome to drive by and take a look! I know you will be pleased. Should you choose CPR for your painting needs I can assure you that you will not be disappointed.
