

Leland Management

To whom it might concern,

I have been using "CPR" Concrete Painting & Restoration for several years. They have done Exterior Painting, Interior Painting, Waterproofing and Stucco repairs for me.

The company portrays great professionalism and communication throughout the projects. Donny has always answered any questions I have had regarding repair work. He has advised me on work that needed to be done before he would start a painting project. CPR is excellent with board members and unit owners.

I have always found their work to be high quality and their customer service is excellent. I would highly recommend them.
